## Group Health Insurance Scheme

Health Insurance is being recognised by New Zealanders today as an extremely valuable cover to have. TNT also recognise this need and has put in place a Group Health Insurance Scheme offered to all employees which is underwritten by UniMed and administered by GHL.

### **COMPANY OFFER**

All full-time permanent employees are offered a subsidy to the level of MedicalCare Base Plan. Employees may take this opportunity to add family members at the same rates and concessions if they are joined at the same time as the employee and within 30 days of eligibility.

There are also certain costs associated with the administration of this scheme, which will be absorbed by TNT.

By doing this TNT has secured you access to certain benefits and concessions which otherwise would not be available.

### **Joining Requirements**

Application for employee and family must be made within 30 days of becoming eligible to obtain the special joining concessions offered only on first offer.

### **Joining Procedure**

Please complete the enclosed application form ensuring **all** details are completed for each member of the family to be covered. Also complete the pay deduction authority (if paying for partner/children or upgrading) and return both forms to GHL in the free-post envelope provided.

A policy document will be mailed to you shortly after your application has been processed.

## Why the Need for Health Insurance?

There are a number of important reasons why you should have health insurance. Here are just a few:

- **Financial Security** - Health insurance gives you the security of knowing that when you do get sick, the financial element of obtaining the health care you need is taken care of. At a stressful time when you should only be thinking about getting well again the worry of paying the medical bills is removed.
- **Access** - For many people public hospital waiting lists are a concern. As at March 2000 over 51,000 people were on waiting lists and there are now some medical services that realistically are no longer available through the public system. Health insurance offers the comfort of knowing you can get the best treatment available quickly when it is needed.
- **Family** - Many people have a greater concern for health issues when they start a family, particularly in the first few years, as this can be an expensive and worrying time. Health insurance can help you concentrate on keeping your family in good health and not worry about the costs.

**Your health is your most important asset and having health insurance will help you achieve your goals in life.**

## Claims Handling

The following are the minimum claims service standards that apply at UniMed: -

**Claims Payments** - That all routine (90 % of all claims) will have claim proceeds posted/direct credited within two to three working days of receipt at UniMed's head office.

**Prior Approval for direct payment of large cost items/treatments direct to provider of service(s)** - All routine requests for prior approval of planned surgery would be finalised with the member concerned within no more than a maximum of ten (10) working days.

Further where other high cost treatments or where financial hardship would result, prior approval and/or direct payment of the provider(s) of the services in question could be arranged within the same maximum 10 day service standard.

**For advice on claims, phone UniMed on 0800 600 666.**

## Options on Leaving the Scheme

Should you leave the employment of Buckley Systems and wish to continue your policy, you will continue to be covered for any pre-existing medical conditions providing you have served three years in the scheme (includes time with previous insurer). Conditions developed after joining will remain covered.

If you should leave Buckley Systems, you are entitled to UniMed's Transfer Group premium rates which remain discounted from their Individual premium rates i.e. less expensive than joining privately. Once you join UniMed, coverage can be for life.
